

Difficult Topics

Bob Stine
Statistics, University of Pennsylvania

Undergrad
MBA

Troublesome Topics

- ⑤ Transformations, particularly logs
 - ⑤ elasticity
 - ⑤ dollars and outliers
- ⑤ Standard error... not directly observable
- ⑤ Topics in inference
 - ⑤ Just about everything related to tests
 - ⑤ Outliers, and what to do about them
- ⑤ Multiple regression
 - ⑤ Picking variables, interpreting slopes

Need More

- ⑤ Substantive context
 - ⑤ Identifying the relevant question?
 - ⑤ What data answer the question?
 - ⑤ Finding such data (eg surveys)
- ⑤ Interpreting results substantively
 - ⑤ Communication (grading?)
 - ⑤ Explaining 95%, p-value ...
Proper emphasis?
 - ⑤ Which variable is most important in a regression...
